

Operational and Maintenance Instructions

Product

Satina wireshelves

Product info

Satina Chrome wire baskets are made in Sweden. They are made from steel, and chrome-plated in our own factory.

Material

Chrome-plated steel

Installation

Use enclosed screws and plugs.

Cleaning

Clean regularly, removing any soap/shampoo residue which, over time, may cause pitting in the chrome and oxidisation (rusting) to occur.

When cleaning, use a mild non-abrasive cleaner with a soft sponge or cloth.

The use of abrasives will result in damage to the chrome.
